

People who have
to deal with
High-tech everyday
need shoes which
stand for progress -

Therefore
"playing it safe"
with ESD quality
shoes with the
experience since
over 30 years.

In this catalogue you will find an extensive range of first class shoes for protection against electrostatics. We produce high-quality shoes allowing for the system of quality assurance DIN EN ISO 9001. We not only attach the most importance to the optimal equipment and elaborated functions but also to hard wearing materials which are excellently processed and guarantee a long living.

CANESPA ESD-shoes according to EN 61340-5-1/5-2
»protection of electronic devices from electrostatic«

Material

CANESPA® uses only selected, high quality types of leather which meet the extremely strict German regulations for the content and tanning agents of leather. All articles are carefully tested and regularly checked.

Special made to order

We are one of the few shoe Manufacturers who produce orthopaedic alterations for a small additional charge. Special wishes regarding colour, material or size are also carried out by us.

Whether it be heel-strap clogs, high-heeled sandals, slip-on shoes or safety shoes, in the CANESPA ESD shoe range you will always find a pair to suit your specific professional requirements.
