

## ESD- security shoes

30°C

made of microfibre (washable at 30°)

The CANESPA CANTEX shoes are made of high-quality microfibres and offer security for high demands. They are extremely light weight even with the steel cap, breathable via the micro-porous structure of the surface (1 million pores/cm<sup>2</sup>), greatly high wear-resistant, have a width bar shape and a comfortable heel height.
